Fourth of July Excursion.

How to celebrate the anniversary of the independence of the United States is, at this time, a question in the minds of a great many people, and the Wabash railway anticipating the general desire of the public to go somewhere on this occasion, has reduced its rates to one fare for the round trip to and from all stations on its lines. Tickets will be on sale July 3 and 4, good for return passage until July 5 inclusive.

LEVI P. MORTON!

Of New York, is Chosen by the Republicans for Vice-president.

Press Comments.

CHICAGO, Ills., June 26.—When the republican national convention met last evening the announcement of candidates for vice-president was continued. The first ballot resulted in the choice of Levi P. Morton, of New York, by the following vote:

Morton, 591; Phelps, 119; Bradley, 103; Bruce, 11; Thomas, 1.

Mr. Denny, of Kentucky, moved that Mr. Morton's nomination be made unanimous. On motion of Gen. Husted, of New York, the national committee was directed to provide in its call four years hence that the territory of Alaska shall have two delegates to the convention. Mr. Boutelle, of Maine, then arose and said that in behalf of a large number of delegetes, he desired to move to suspend the rules, and adopt a resolution to be added to the republican platform. Oliver, of Pennsylvania, objected that it was not in order. Great confusion and ill feeling followed. The chair sustained the point of order, but said the resolution might be read for information, chorus of objections responded and confusion reigned again. When order was restored Mr. Boutelle read the following: "The first concern of all good government is the virtue and sobriety of the people and the purity of their homes. The republican party sympathizes with all wise, well directed efforts for the promotion of temperance and morality."

As soon as this was read there was a rush from various states to second the motion. After some time, the question was put and the resolution adopted by a rising vote. Only one delegate from Maryland was brave enough to declare himself in the negative. A vote of thanks was then tendered to the chairman and other officers of the convention and then, on motion of Mr. Hiscock, the convention adjourned at 8:52 p. m. without delay.

WHEN THE CANDIDATES WILL BE NOTIFIED.

CHICAGO, June 26.—The meeting of the committee to notify the nominees was held this morning. Hon. Morris M. Estee presided. John C. Dougherty, of Tennessee, was secretary. The time for notifying the candidates was left to the discretion of the chair. Chairman Estee then decided to notify General Harrison at 12 o'clock noon on July 4th, at Indianapolis. The committee then adjourned to meet July 4 at Indianapolis.

DELEGATE'S CALLING ON HARRISON.

CHICAGO, June 26.—Chairman Estee, of the republican convention, together with six car loads of delegates, left this morning for Indianapolis, to call on General Harrison and congratulate him on his nomination.

MORTON TALKS.

RHINEBECK, N. Y., June 26.—Mr. Morton, on hearing of Harrison's nomination, said: "I regard General Harrison's nomination as the strongest that could have been made. It will place Indiana in the republican column, and with the republican party in New York united as it is to-day, I cannot for a moment doubt a republican victory in November."

CAPTAIN WHITE'S OPINION.

WASHINGTON, D. C., June 26.—Representative White, of the Fort Wayne district, says: "I consider it the best political move the convention could have made. It makes sure of Indiana for several reasons, and one important reason is that the democrats have undoubtedly slighted Indiana and that makes it all the more certain that the nomination of Harrison will secure it to the republican party."

PRESS COMMENTS.

The Indianapolis *Sentinel*, in speaking of the nomination of Mr. Morton, has this to say: "It is safe to say that had it not been for Mr. Morton's barrel the chances are that he would never have been thought of in connection with the vice-presidency. He is a man of mediocre ability, with no special amount of influence in any direction, and no political record of importance. He was elected to congress from the the aristocratic Fifth-ave. Murray Hill district of New York, and after that was sent to Paris by President Arthur in part payment of his contributions to the Garfield-Arthur campaign fund of 1888. After he was succeeded to the French mission by Minister McLane he returned to New York and made an effort to get into the United States senate through the legislature of his state, but made a failure of it, since which time he has withdrawn from public life. Mr. Morton is expected to canvass Wall street and eastern manufacturing districts whenever the national republican committee falls short of funds, which will probably be quite often during the next few months."

NEW YORK, June 26.—The *Commercial-Advertiser* (republican) says of the Chicago convention: "The platform adopted is astonishing in its proposals.. It is, as we have said, unrepublican and un-American. It is a platform in direct contradiction of history's principal teachings and oft repeated promises of the party in whose name the conspiracy of unscrupulous politicians has put it forth. We mistake the character and temper of the intelligent republicans of to-day if many thousands of them do not condemn with their ballots, as their representative newspapers have through many months condemned, its suggestions in advance."

CONGRATULATIONS TO HARRISON.

INDIANAPOLIS, June 26.—General Harrison has been receiving telegrams and letters from all quarters and from many distinguished persons. Gen. W. T. Sherman sent the following:

"It is proper that I should assure you of my great confidence and hearty support."

General Sherman Opinion.

NEW YORK, June 26.—Gen. Wm. T. Sherman said, last night, at the Fifth Avenue hotel:

"I think there could not be a more powerful ticket than Harrison and Morton. I think that every man who fought for the preservation of this government should vote for these men. They are both strong union men, one a soldier and the other a statesman, and both are well tried in their country's service. Harrison, I think, will be as strong as Blaine would have been, Of course, I would rather my brother John had got it, but the republican party should be the judge and select its own standard-bearer. It is now the duty of every true citizen to stand by these men, who were true to the country when she was in danger. There has never been a true union man sent to represent this country in foreign lands under this administration and it is time for a change."

A Deep Gloom at Lafayette.

LAFAYETTE, June 26.—Harrison's nomination has cast a deep gloom over the republicans here and many have expressed their avowed disapproval. Gresham was a popular favorite with Blaine. A weak attempt was made here last night to enthuse over Morton, but two tin horns were the only ones heard. Dissatisfaction is a substantial fact and will make practical showing in November balloting, when the clique will not control the popular vote. Harrison, by all his friends, is considered the weakest man whom the republicans could have named. His nomination has been received with tears of political regret in many places.

Republicans For Cleveland.

PERU, Ind., June 26.—Last night was the reorganization of the old Hendricks club here. Frank D. Butler, one of the best organizers of the country, is its president, assisted by a vice president from each ward. Speeches were made by J. L. Farrer, J. T. Cox and Charles A. Cole, at the close of which a staunch republican came up and attached his signature to the long list of members. Gresham had many friends here who now openly avow that they will support Cleveland and the old Roman. The mugwump cry will be louder than ever in this campaign.

A Prohibition Victory.

CLINTON, Iowa., June 26.—Judge Howat yesterday ordered a temporary injunction to issue against nine saloon keepers and the buildings they occupy, restraining them from selling liquor until applications for temporary injunction can be heard in the district court in September. This is the first real victory for the element in favor of enforcing the law, and it is the direct result of Mayor Chase's efforts to close the saloons. The prominent sal onists enjoined have closed their places.

Barnum & Bailey Sued.

LOGANSPORT, Ind., June 26.—Charles Halsema, of Lafayette, yesterday filed with the county clerk of this county a suit against Barnum & Bailey for $2,500 damages. He claims that during the parade here last Tuesday an elephant frightened a horse, causing a runaway in which he received injuries to that extent.

Snow Falls.

MILWAUKEE, June 26.—A special from Ellsworth, Pierce county, says snow fell there this morning.

TERRIBLE DISASTER.

Over Seven Hundred Lives Destroyed and Thousands Made Homeless by the Floods in Mexico.

ST. LOUIS, June 26.—A special dispatch from the City of Mexico gives the particulars of a terrible disaster on the line of the Mexican Central railway, particularly at Leon and Silao.

Every mountain rivulet along the Central railway for more than 200 miles has been converted into a destructive torrent and the valleys present the appearance of lakes. Leon and Silao have been partially destroyed. About 325 houses have been destroyed. It is estimated that 700 persons perished at Leon. One hundred and eleven bodies have been recovered without moving any of the ruins of the houses. The destroyed houses are estimated at 2,000 and the loss at $2,000,000.

Many other towns have been badly damaged, but loss of life is only reported from Silao and Leon. The last reports from Leon are heart-rending. The whole population are busy working in the ruins of the fallen houses. Nearly everybody has lost relatives or friends. The very last reports, just received, places the number of houses destroyed in Leon at 2,224 and the homeless families at more than 1,000. More than 250 bodies have been recovered from the ruins and there is no probability that the entire number will fall short of 700.

A dispatch from El Paso, Tex., says 1,500 lives were lost by the inundation in Mexico. One thousand bodies have been recovered. One hundred miles of Mexican railroad will be impassable for ten days before the mails can get through.

A DOUBLE TRAGEDY.

A Young Lad Shot the Cook and Then Blew Out His Own Brains.

NEW YORK, June 26.—This morning Joseph Zaford, a sixteen-year-old boy employed in a boarding house at 125 West Fourth street, shot and instantly killed Rosie Sheridan, aged nineteen, the assistant cook. Then he blew his own brains out.

Somebody Poisoned the Fair Sleeper.

LOCKPORT, N. Y., June 26.—Mrs. Helen Althouse, the well known mysterious Attica sleeper, has had a narrow escape from death from poisoning. Two strange men visited Mrs. Althouse, last Thursday, and it is thought they induced her to drink coffee which had previously been poisoned. After they had left, Mrs. Althouse had every symptom of having been poisoned. The men were unknown to the family, but Mrs. Althouse seemed to know who they were, although she declines to talk. Vague talk about money adds to the mystery. The case has been laid before the district attorney.

Struck by the Train.

BROWNSTOWN, Ind., June 26.—Passenger train No. 5, on the O. and M. road struck Jerry Fleetwood and a young man named Jones at Medora, this county, while they were sitting on the track. They were hurled a considerable distance. Fleetwood has several ribs broken beside severe interal injuries, and his condition is critical. Jones was fortunately but little hurt. The train was making forty-five miles an hour.

Arrest of a Horse Thief.

SEYMOUR, Ind., June 26.—Asbury Goble was arrested at his home in Houston, this county, on the charge of having stolen a horse, about ten days ago, from W. D. Scott, same place. It was learned that Goble took the horse, worth $75, to Columbus and sold him for $15. The proof against him is positive. He was brought here and placed in the county jail.

Good Fortune That Came Too Late.

FINDLAY, O., June 26.—'Squire Johnson has just been granted a back pension to the amount of $5,700 and $25 a month henceforth. It comes too late for him, as his mind is nearly gone. He is an inmate of the Hancock county infirmary. He has three young daughters to be benefitted. Isaac Davis has been appointed guardian for Johnson, with bond fixed at $15,000.

Diseased Cattle.

INDIANAPOLIS, June 26.—Complaint comes to the state board of health of the prevalence of disease among the cattle in the vicinity of Richmond. Whole herds are afflicted. One of the state veterinary surgeons is now examining the nature of the disease.

DYING BY HUNDREDS.

Excessive Heat Causes the Death of Countless Children in New York.

NEW YORK, June 26.—The continued heated term is playing sad havoc among the children in the tenement house districts. The certificates of deaths are pouring in and several clerks are kept busy tabulating them for future reference in the bureau of vital statistics. Up to noon yesterday over one hundred deaths of children from diarrheal diseases, caused by the heat, have been reported and it looks like fully three hundred deaths for the day, the heaviest in a year. Horses are suffering severely and a number of cab and car horses have dropped dead from the heat, the latter notwithstanding the fact that the companies have relays at intervals of a mile and hospital stations along the lines. At noon the thermometer registered 88 degrees.

WITH A BALL IN HIS BRAIN.

A Wounded Man Walks a Mile and a Half for a Doctor.

LOGAN, O., June 26.—William Johnson shot and killed William Hill, a miner, at Johnson's residence, at Lick Run, just on the edge of this county, Sunday. Hill walked one mile and a half to a doctor's office with a twenty-eight caliber ball in his brain. The difficulty grew out of a trivial remark made by Hill to a woman who is living with Johnson as his wife. Hill is a married man and left a family consisting of a wife and children, at Jackson, Ohio. Johnson is in jail.

HELD BY TRAMPS.

Boys Held for Ransom by Tramps Make Their Escape.

CANTON, Ohio, June 26.—E. Loutzenholter, a boy who has been missing seven weeks, has returned, saying he was chloroformed by tramps, conveyed in a freight car to Altoona, then marched to the tramps' camp, where three other boys were held for ransom. They were close guarded, but this boy made his escape and gave notice to the police at Altoona, who dispersed the tramps and released the boys.

CHLOROFORMED BY BURGLARS.

A Lady Robbed of Her Rings While Sleeping.

SHELBY, Ohio, June 26.—While Mr. and Mrs. Oll May were asleep last night burglars entered their bedroom, chloroformed them, and took two valuable rings from Mrs. May's hand while she was asleep. A valuable watch and several other articles of value were taken.

Shot by a Saloon Keeper.

OSGOOD, June 26.— Yesterday afternoon John W. Johnson, a saloon keeper, ordered Lewis Schrader, aged about thirty, to leave his saloon, and upon refusal Johnson shot him with a revolver, the ball entering about the fifth rib. Schrader is not expected to live. Johnson gave himself up, and was bound over to the circuit court on the charge of shooting with intent to kill.

Lynched by a Mob.

CHICAGO, June 26.—A special from Charleston, Coles county, Ill., says: "Wm. Moore, the colored man who assaulted Mary A. Bingardiner, at Mattoon, Saturday night, was taken from the county jail at Charleston and lynched by a party of masked men. Moore came from Shelbyville, Ill., and was only sixteen years old."

Struck a Fatal Blow.

CINCINNATI, June 26.—Yesterday afternoon in the yards of the Ohio and Mississisippi railroad, Henry Loose and William Deckman became engaged in a quarrel, which ended in Deckman striking Loose on the head with a stick of wood. Loose's skull was fractured and he died an hour after. Deckman escaped into Kentucky.

Governor Gray.

TIFFIN, O., June 26.—A fast train on the Baltimore and Ohio railroad loaded with Chicago delegates ran into a freight at Chicago Junction, at 2 o'clock this morning, while running forty miles an hour. The engines, baggage car and freight cars were demolished and the track torn up for a long distance. The engineer was fatally hurt and the passengers scratched and bruised. All were taken back to Fostoria and around to Columbus.

A DIVER'S BIG HAUL.

Thousands of Dollars Worth of Stolen Property Recovered.

NEW YORK, June 26.—The diver employed by the Adams Express company to search for the treasures that Dennis Mallen, the thievish boy messenger, threw into the river at the company's dock, Jersey City, has made a rich haul.

When his work for the day was finished and he had thoroughly turned over mud to the depth of three feet, he was rewarded by securing thirty dozen boxes of valuable jewelry and a quantity of solid silverware. The property is much damaged, but is worth thousands of dollars. The $1,500 badge which was to have been presented to Mayor Haines, of Newark, was not found.

KILLED WHILE HUNTING.

The Premature Explosion of a Gun Causes a Young Nimrod's Death.

MARION, Ind., June 26.—Arthur Erskin, residing ten miles east of here, met with a terrible death yesterday. Erskin, while out hunting, was standing on a piece of timber, his gun by his side and the muzzle leaning against his body. The gun was discharged by his slipping off the timber and catching on the lock. The load was discharged in the young man's groin and bowels, and he expired after several hours of the most intense agony.

ORGANIZE the Jeffersonians.

ORGANIZE democratic ward clubs.

THE machine triumphed after all.

THE SENTINEL leads in the news procession.

THIS is a very good time for democrats to organize.

HAD the republican convention continued a month it could not have done worse.

THE Gresham boom was tenderly but firmly interred by the Harrison machine.

JUST see what a cooling effect Harrison's nomination has had on the weather.

THE Chicago convention might have indorsed Cleveland and saved some little trouble.

THE *News* is the Harrison organ and the *Gazette* will have to tune its lyre for second place.

THE *Gazette* takes its medicine after the usual fashion, but there are evidences of internal convulsions.

JUDGE GRESHAM to the *Gazette*: "Please decline to mention Governor Gray's defeat. I know how it is myself."

PRESIDENT CLEVELAND will visit Charlottesville, Va., to-morrow, for the purpose of attending the commencement of the University of Virginia.

A MACHINE NOMINATION.

The nomination of General Harrison is unquestionably weak, but it represents machine work and the same agency that accomplished the nomination will use every means, fair and foul, to achieve success at the polls.

General Harrison is weaker than his party and cannot be elected, but he is situated in a manner to menace democratic success.

With organization, work and intelligent presentation of the issues between the parties there need be no fear of the result, for in General Harrison the people will recognize the embodiment of the republican spoils system—a tool in the hands of Steve Elkins, Dudley and their kind.

Economy and strength are peculiar to Hood's Sarsaparilla, the only medicine of which "100 Doses One Dollar" is true.

Ayer's Sarsaparilla operates radically upon the blood, thoroughly cleansing and invigorating it. As a safe and absolute cure for the various disorders caused by constitutional taint or infection, this has no equal. Take it this month.

What fools liquor can make of a man. We have a number of fine specimens at this place.

D. A. Row is making preparations to build an elegant frame dwelling on his farm north of town.

The Sunday liquor traffic is closely watched, but in spite of this the usual man can have his dram.

H. C. Davis is remodeling his residence in the west end, which will, when completed, add greatly to the beauty of that part of the city.

Ex-Auditor Argo had the misfortune of having his right hand lacerated by a vicious bull, while leading it around his stable. The wound is a painful one but not serious.

A number of our citizens attended the Chicago convention last week and returned with mournful countenances. It is needless to state that they are republicans and are willing to bet their old boots that Cleveland will get there with ease.

In about three weeks the new Nieser elevator will be completed. It will be the finest structure of the kind in the state, and will contain some of the most improved labor saving machinery for handling grain found anywhere. It will be no half completed building.

The Pool families, who for many years have been respected residents of this place, will in a short time move to California, which place they expect to make their future home. They leave with the best wishes of their many friends, who hope for their success in whatever undertaking they may engage. Uncle Sam Pool has been a constant reader of THE SENTINEL for many years and it will follow him to his new home.

We find that the condition of wheat has somewhat improved. The latest statistics for this section shows an average of eighty-seven per cent. of the full crop, which is entirely too high. Something like thirty per cent of the wheat sowed last fall would sound much better. Potatoes, oats and corn look well. Hay is medium, with a good prospect of improvement. Fruits will not be as plentiful as was at first expected, with the exception of apples.

The corner stone of the new Catholic church at this place will be laid with appropriate ceremony by the Rt. Rev. Bishop Dwenger, of the Fort Wayne diocese, next Sunday afternoon. A special train will run from Fort Wayne to convey the distinguished prelate. The Catholic Knights, the Catholic Legions and a large crowd from the Summit City, the Knights of St. John's, of Decatur, and other societies from New Haven, Payne and other places will be present. The Catholic people of this place are making extensive preparations and will give a right royal reception to their visiting friends. Nothing will be left undone that can be done to make the conditions all that they can be made. The Fort Wayne delegation will be escorted from the depot to the church by the St. Aloysius and St. Joseph societies of this place, headed by the Monroeville brass band. Refreshments and meals will be served by the ladies on the ground.

ENLIGHTENING.

ELECTRIC SUNSTROKE.

It has been recently stated in a paper read before the French Society of Surgeons that workmen operating electric forges at Creusot are subject to an affection resembling sunstroke, which is evidently due to the powerful light proceeding from the focus of the forge. Ordinary electric lights are incapable of producing such an effect, not being sufficiently intense, but these forges emit a glare of almost inconceivable brilliancy.

The first effect upon the men is frequently to be noted after two or three hours' work. They complain of paine in the head, neck, and forehead, and the skin changes from its original color to a reddish brown.

In spite of their care in shielding the eyes with dark glasses, the sight is affected to such an extent that for some minutes after ceasing work and beginning to view objects by common daylight, the operatives are wholly blind; perfect vision is seldom restored under an hour's time. The eyes are inflamed and affected by that painful irritation which accompanies the presence of a foreign substance under the lids.

A constant flow of tears is kept up for twenty-four hours, during which time the patient is also afflicted with insomnia. During the following days the skin peels from the face and neck, leaving the surface of a deep red color, which possibly fades away about the fifth day.

None of these symptoms spring from the effect of heat upon the brain, but are due entirely to that of light.—*Youth's Companion.*

THE expulsion of the French from Nova Scotia, which furnished the story of Longfellow's Evangeline, was accomplished by Monckton in June, 1775.

Bucked His Game.

"What's your name, little girl?" he asked as he stopped to pat her on the head.
"I won't tell," was the reply.
"Why not, my dear?"
"'Cause you want to get it and then holler 'chestnuts' at me!"—*Detroit Free Press.*

A BARBER'S EXPLANATION.

Value of a Shampoo and Why It Costs More Than a Shave.

It took the barber nine minutes to shave the man in his chair, twenty minutes to cut his hair and eight minutes to give him a shampoo. The shave cost 15 cents and the hair-cut and shampoo 25 cents each. This was somewhat confusing. Apparently anybody can shampoo a person, while a little skill and practice is necessary in order to shave a man or cut his hair.

"It seems to me," said the man in the chair, who happened to be a ubiquitous newspaper correspondent, "that there is imposition around here somewhere. You have either charged me too much for the shampoo or too little for the hair-cut. Now, whose right is it to kick—yours or mine?"

"Nobody's," answered the barber, promptly. "A shave costs only 15 cents because a man gets shaved frequently. If it cost more it might be an inducement for men to shave themselves, and we have got to avoid that contingency if possible. A hair-cut cost 25 cents because it is worth every cent of the money. It takes a good deal of skill to cut a man's hair properly, and when a barber has reached that height where he can cut hair to the satisfaction of everybody he is an artist indeed. There are men who visit their barber twice a week regularly the year through and who never think of getting a shampoo. If the price were lower it would make no difference. They are not accustomed to it, and they don't know the need of it. On the other hand, we have customers who get shampooed once a week regularly, and there are other men who enjoy the luxury of a shampoo two or three times a week, or oftener if they happen to need a little freshening up. Where a hundred men get shaved there are about twenty who have their hair cut and about ten who get a shampoo. It is this that puts the price of a shampoo on a level with that of a hair-cut."

"But wouldn't men get shampooed oftener if the price were lower?"

"Certainly not. The men who are accustomed to it know the necessity of it, and would not forego the pleasure of it, to say nothing of the benefit, if the price were higher."

"Do you think, then, that a shampoo is good for the hair?"

"Indeed I do. It is not only good for the hair, but good for the scalp, for the head, for the brain, the nerves, and, in fact for almost every portion of a man's body. Take a good, strong body, whose hands are strong but not rough, and let him give you a thoroughly good shampoo, and you will find that you feel a great deal the better for it. It beats a cocktail all to pieces. It keeps the scalp healthy, makes the hair luxuriant, and imparts a luster to it. The friction wakes up the brain and sends the blood rushing away with renewed force, and, in fact, renovates the entire man."

GRAVES AND BURIALS IN ALGIERS.

Arab women patronize the conveyances, and on Fridays they go in crowds to Belcour, where there is a cemetery and a neat little khouba frequented by the fair sex on that day. A column in the center of the court supports trellises of grape-vine. Tombstones of marble and slate are numerous in the court as well as out in the cemetery. At the head of each tomb is a slab of marble with one or two round holes in which flower-pots are set, or cups placed there that the birds may drink from them; the natives believe that these birds afterward fly away to Heaven with a greeting from the soul reposing beneath.

The keeper of this khouba was old and blind; he passed his time in sweeping the carpets and matting, then resting and singing to himself. He would use his handkerchief to dust the sacred tomb, wash it, and then dry it in the sun, holding it until it was dry. To satisfy my curiosity I sent a child to translate for me and ask if he was happy, or what he could desire. He shook his head: "No, I want nothing; I am never *ennuye*, and I am quite happy."

One day I witnessed here the burial of a child. The young boy was laid in the grave wrapped in a yard or two of white cotton; a smaller hole was dug at the bottom of the grave, and served as a coffin, being covered with flat slabs of stone to prevent the earth from falling directly on the body. Twenty or thirty men stood round in silence, the earth was hastily replaced, and temporary stone were placed at the head and feet; the cushions and pieces of embroidery in which the body lay on the donkey which bore it to the final resting-place were put back on the animal, and the procession moved silently away. The women and girls always come afterward to weep on the grave and place flowers, and especially branches of myrtle. They often spend the greater part of three days round a new grave, sitting on matting and carpets.—*F. A. Bridgman, in Harper's Magazine.*

BEST VIEWS OF MARS.

When Mars and the sun occupy opposite places in the heavens our near planetary neighbor is seen at its best. This occurs once in 780 days, but, on account of the ellipticity of the orbits of the earth and Mars, the two planets come nearest together only once in fifteen years. Mars was in opposition in April of this year; it will make its closest approach in 1892, when it will be only 35,000,000 million miles away. The memorable discovery of the two tiny moons was made during the opposition of 1877.—*Arkansaw Traveler.*

IDEAL HUSBANDS AND WIVES.

It may be truthfully said that less than one-fourth of the women who marry know what they are doing. They have no idea of what their duties are, much less their rights. About all they know is that they are getting married. Is it any wonder that so many are disappointed and wish themselves out of it?

It is perfectly right for a woman to have an ideal huband, yet more important that she should have a clear and distinct notion of what constitutes an ideal wife. There's where the trouble lies. They all want ideal husbands, but never seem to think that men may want ideal wives. Men imagine that a wife will make them happy, and women think that all they need to put an end to their troubles is to secure a husband. How sadly both are disappointed. The wife who expected her husband to make her happy is foredoomed to disappointment; so is the man who expects the same from his wife. We make our own happiness, and in so doing make others happy.

Whenever young women begin trying to fit themselves for wives then a new social era will begin to dawn. There will be more happy homes, less poverty, fewer divorces and a better moral atmosphere. There is a great deal of room for men to improve in the same line. Comparatively few of them have definite ideas in regard to the home life they expect to live. If they do picture such a thing, they follow the outlines traced by some sentimental novelist. It is an impossible sort of place, in which he installs an angel. Nectar takes the place of coffee, and the bread plate is filled with lotus.—*Pittsburgh Dispatch.*

THE QUIETEST DOG.

Some time ago there was a dog show held in San Francisco, and among the various prizes offered, was one for the quietest dog. Upon the opening day a stranger entered the building, carrying a locked dog box, which he carefully deposited among the setter class. It contained a queer-looking specimen of a setter, and the chief characteristic of the animal seemed to be that it never changed its position, but sat up boldly and regarded the spectators with a sort of stony glare that was apt to terrify the more nervous portion of them. During the judging of the dogs, the owner of this strange animal objected to its being taken out of the box for competition. It was there, he said, to try for the prize as the quietest dog, and in justice to himself it would be wrong to expose the pup to the excitement of being judged with the rest of the class in the ring. This demand was acceded to by the judges, and sure enough, during the whole three days of the show, this one dog was never known even to bark. Of course it obtained the special prize and the show broke up. Afterwards many dog fanciers came to the successful exhibitor to ask by what means he had got his animal so completely under control. Under promise of secrecy he divulged his plan. "The pup," he said, "is always quiet, 'cos why, he died two years ago and is stuffed." San Francisco dog fanciers are unanimous in their opinion to bar that exhibitor out of all subsequent meetings of their association.—*Philadelphia Times.*

COMPRESSED AIR FOR MOTIVE POWER.

M. Victor Popp is making good progress with his system of distributing compressed air for motive power purposes in Paris. The works for compressing the air in the Rue St. Fargeau, at Menilmontant, are of considerable magnitude. They cover an area of 15,000 square meters, of which an extent of 2,000 meters is roofed over. There are already fixed and in operation seven steam engines of 400 horse power and two of 100 horse power each, a total of 3,000 horse power. The conduits have already been laid over the whole area comprised between the line of the boulevards and the Rue de Rivoli. These are sometimes laid in trenches cut for the purpose and sometimes in the sewers. The total length of the pipes laid was at the end of last December a little over thirty miles. This source of power is used for working electric light machinery in a large number of establishments, among which may be mentioned the Cafe Americain, the Cafe de Paris, the Cafe Anglais, the offices of the Figaro and the Jardin d'Hiver.—*New York Graphic.*

NOT ONE OF THAT SORT.

"I suppose you are a fatherless boy?" he observed, as they made change for a paper.
"Oh, no."
"But your father gets drunk and you have to support the family?"
"No."
"But you give all your money to your mother?"
"Not a red cent of it.
"Well, you are poor?"
"Not much! I'm just doing this for recreation, while my brothers are cutting the coupons off father's bonds. Say, if you go up as far as the coupe office, tell 'em to send me down a turnout to roll me up home. It must be getting near our dinner hour, and we have fourteen invitations out to-day."—*Detroit Free Press.*

It Was a Good Nest.

The young man had asked him for the hand of his daughter, and pang wrung the fatherly heart of Mr. Kajones as he looked at the youth for some moments in silence and thought of the bitterness of parting with his well-beloved child.

"I suppose, Oliver," he said at last, "it is only natural and right that when the young birds have become old enough to fly they should leave their parental nest and go off with their chosen mates to build nests of their own, and yet it hurts, Oliver; it hurts when I think of one of my fledglings getting ready to fly away."

"This seems to be a good-sized nest," suggested the young man, anxious to soften the blow, "perhaps you'd rather have me and Alvira stay right here?"—*Chicago Tribune.*

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

This pleasant California liquid fruit remedy may be had of Theime and Gross, druggists, large bottles at fifty cents or one dollar. It is the most pleasant, prompt, and effective remedy known to cleanse the system; to act on the Liver, Kidneys, and bowels gently yet thoroughly; to dispel Headaches, Colds and Fevers; to cure Constipation, Indigestion, and kindred ills.

Pearl Soap

is renowned for its fine washing qualities. It lathers freely and is, without boasting, the most economical and best for family use.

Rev. H. H. Fairall, D. D., editor of the *Iowa Methodist*, says editorially, in the November (1883) number of his paper: "We have tested the merits of Ely's Cream Balm, and believe that, by a thorough course of treatment, it will cure almost every case of catarrh. Ministers, as a class are afflicted with head and throat troubles, and catarrh seems more prevalent than ever. We cannot reccommend Ely's Cream Balm too highly."

JOHN BURROUGHS, whose great familiarity with plant and animal life is apparent in his popular magazine writings, says that the best remedy for ivy or sumac poisoning is the frequent application of hot water, as hot as it can be borne.

The Reason Why

Ayer's Pills are so popular is, that while always reliable as a cathartic medicine, they never leave any ill effects. This is because they are purely vegetable, and entirely free from calomel or any other dangerous drug. In all cases, therefore, whether the patient be old or young, they may be confidently administered.

In the Southern and Western States, where derangements of the liver are so general, Ayer's Pills have proved an inestimable blessing. D. W. Baine, New Berne, N. C., writes:

"I suffered a long time with stomach and liver troubles. I tried various remedies, but received no benefit until I commenced taking Ayer's Pills. These pills benefited me at once. I took them regularly for a few months, and my health was completely restored."

Throughout New England, next to lung diseases, **Stomach and Bowel Complaints** are the most prevalent.

Dyspepsia

and Constipation are almost universal. Mr. Gallacher, a practical chemist, of Roxbury, Mass., who was long troubled with Dyspepsia, writes:

"A friend induced me to try Ayer's Pills, and, after taking one box without much benefit, I was disposed to quit them; but he urged perseverance, and, before I had finished the second box, I began to experience relief. I continued taking them, at intervals, until I had used eleven boxes. Suffice it to say, that I am now a well man, and grateful to your chemistry, which outstrips mine."

The head and stomach are always in sympathy; hence the cause of most of those distressing headaches, to which so many, especially women, are subject. Mrs. Harriet A. Marble, of Poughkeepsie, N. Y., writes that for years she was a martyr to headache, and never found anything to give her more than temporary relief, until she began taking Ayer's Pills, since which she has been in the enjoyment of perfect health.

NOTES ON SCIENCE.

IT is a new idea to most persons that edge-tools not infrequently become what artisans term "tired," and will not hold a keen edge until they have a rest. This is the statement of carpenters, barbers, and wood-choppers. Locomotive engineers notice something akin to this in their engines. It is probable that constant and hard usage causes changes in the crystallization that may account for this peculiarity in inanimate things.

SCIENTISTS have determined by careful experiments that a man can barely taste 3-1,000ths of a grain of sugar, 1-1,000th of a grain of salt, and 5-10,000,000ths of a grain of strychnine.

CHAMOIS skin that is washed in water becomes stiff and harsh. But it can be washed and yet remain soft and pliable by the following method: Use a weak solution of soda and warm water, rub plenty of soft soap into the leather, and allow it to soak for two hours, then rub it sufficiently and rinse in a weak solution of warm water, soda, and yellow soap. If rinsed in water only it will be unfit for use when dry. After rinsing wring it out in a rough towel and dry quickly. Then pull it about and brush it well.

TO TREAT an ingrowing nail begin the cure by application to the tender part of a small quantity of perchoride of iron, which can be easily procured either in fluid or powder form at a drug store. The tender flesh is dried and tanned by this application and ceases to be painful. When this hardened flesh has remained on two or three weeks it can easily be removed by soaking in warm water. Loose shoes and cutting the nails properly will complete the cure.

WE have sixty divisions on the dials of our clocks and watches, because the old Greek astronomer, Hipparchus, who lived in the second century before Christ, accepted the Babylonian system of reckoning time, that system being sexagesimal. The Babylonians were acquainted with the decimal system, but for common or practical purposes they counted by "sossi" and "sari," the "sossos" representing sixty and the "saros" six times sixty—360. From Hipparchus that mode of reckoning found its way into the works of Ptolemy, about 150 A. D., and thence was carried down the stream of science and civilization and found its way to the dial-plates of our clocks and watches.

IN France wood-pulp is rapidly being substituted for plaster of paris in the manufacture of all sorts of moldings and ornamental parts of buildings. The method is newly devised.

PETER CARTWRIGHT'S NERVE.

In August, 1857, we held a camp meeting near Walker's Grove, Mason County, where for ten days it seemed as if the devil was turned loose. The rabble not only drank whisky and made night hideous with their yelling, but they stole the campers' utensils and provisions, and a row which took place about a half-mile from the camp-ground, in a dispute growing out of a game of cards, a man was killed, and the killing was charged to young Armstrong, whom Lincoln cleared.

A man came to the camp-meeting and put up a tent and stand on the northwest corner of the square where services were held, where he not only had cheese, crackers, and candy for sale, but whisky as well. He had a double-barreled shotgun, pistols, and butcher-knives convenient for use, and an ax where he could lay his hand upon it, and he swore he would be the death of any one who attempted to arrest or interfere with him. The camp-meeting authorities could not get any officer of the law to attempt his arrest. Peter Cartwright, D. D., who was presiding elder of the district and in attendance upon the camp-meeting, said that if they would deputize him he would arrest the man. The papers were accordingly made out. Dr. R. N. Davies, of the Illinois conference, and I accompanied Dr. Cartwright; and he deliberately walked up to the man, though the fellow had grabbed the ax and swore the most terrible oaths that he would brain any one who touched him. The doctor laid his hand upon the man's shoulder and said, "You are my prisoner; come along." The fellow laid down his ax and was led out of the stand by Dr. Cartwright. I have always been counted to have considerable nerve, but I would not have attempted to do what Dr. Cartwright did for all Jay Gould is worth. Afterward Dr. Cartwright was presiding elder for two years, and he has told me that he did not think that he knew what the sensation of fear was. —*Rev. Mr. Bryant, Littleton, Ill.*

"When Alphonse Daudet, the novelist, was a schoolboy, he played the truant six days out of every ten," says the London *Standard*. "His favorite haunt was the river, where, with pipe in mouth and flask in pocket, he mingled with boon companions of the class, part sailor, part laborer, part rascal, who navigate the steamboats and barges on the Rhone. These wanderings were not unknown to his mother, and the future novelist was early constrained to invent fictions in the hope of escaping the rod. Returning one day from a freak of vagabondage, and being at his wit's end for a new excuse, he gravely announced the death of the Pope. His devout parents were too greatly concerned at the loss of their spiritual father to trouble their heads about the truant. The young rogue shared the grief of his honest parents, and consoled himself with the thought that on the morrow, when they learned that the Pope was not dead, they would be too pleased to scold."—*New York Evening Post.*

Old Custuggee's Tomahawk.

A curious and historic Indian tomahawk has been unearthed on the banks of the Richland Creek in Green County, Ga. Its historic interest consists in the fact that it has been identified by old settlers as the ax wielded by Custuggee, one of the most dreaded Indian braves who resisted the advances of the paleface into that part of the country. In size the tomahawk is as large as an ordinary ax, but is much thicker and heavier, yet Custuggee is said to have wielded it as though it were a mere toy. It has still a keen edge. As a piece of workmanship it is perfect. It is of block quartz rock, and is cut smooth in every respect. The ax weighs three pounds, and there would be no trouble in cleaving a man's head in two with it. It was found on the bank of Richland Creek sunk deep in the earth, where it has lain certainly for fifty years.

BALM, overcomes Sallowness, Blotches, and gives a Smooth, Soft, Youthful and Pliable Skin!

SPEAKER CARLISLE deplores the growing tendency of both sides to make Congress a field of partisan discussion for campaign purposes rather than for legislation to meet the exigencies of the people, and thinks the body will be fortunate to be able to adjourn by September.

MRS. JEFFERSON DAVIS is of northern stock, and her grandfather obtained his main place in the history of New Jersey for commanding all the New Jersey line in the subjugation of the first rebellion against this government. Washington called out some twelve thousand men from the three States of Pennsylvania, Virginia, and New Jersey. The commanders of these levies were Gov. Mifflin, Henry Lee the father of Robert E. Lee, and Richard Howell, the grandfather of Mrs. Jefferson Davis.

JOHN W. MACKAY does not appear to be made of the common clay of which most millionaires are composed. A writer in the Salt Lake *Tribune* once heard the bonanza king say when a strike was threatened in Virginia City. "I am sorry that these men who are receiving $4 a day do not save more of their money. I rolled rocks in Yuba River fourteen hours a day, for months at a time, and went to camp every night soaked to the bone, and did not average $4 a day, but no one ever found me quite broke or ever heard me complain."

"WHAT AILS YOU?" You don't know? Then why don't you try WARNER'S SAFE CURE? Oh, my Kidneys are all right! "Are they?" You perhaps don't know that CONSUMPTION, NEURALGIA, RHEUMATISM, STOMACH DISORDERS, MALARIA, CHILLS AND FEVER AND AGUE, HEADACHES, LIVER DISORDERS, IMPAIRED EYESIGHT, CONSTIPATION, ABSCESSES, ERUPTIONS, IMPOTENCY, LAME BACK, LUMBAGO, BOILS, CARBUNCLES, and, among women, FEMALE COMPLAINTS prevail mostly among people who, like yourself, insist that they have no kidney disease! They have and don't know it. You will never get well of the above and countless other common disorders, which would never prevail if the Kidneys were all right, unless you restore the unsuspected disordered Kidneys by that great blood tonic and purifier, WARNER'S SAFE CURE.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

Hon. James H. Rice was in the city yesterday. Mr. Rice is a gentleman and a democrat who has served his party faithfully and long. This fact, however, does not deter the *Journal* from insulting him simply because he dared to support Hon. Hugh Dougherty for auditor of state. This sort of democracy is positively disgusting and provokes us to say unkind things.

Messrs. J. C. and Geo. Kensill were at the Pittsburg depot last evening when the train bearing the Philadelphia delegates from Chicago passed through the city, and met a number of their playmates of years ago. Hughes, the prohibition candidate for governor of the state, and other candidates will be present to make addresses and the meeting promises to be an interesting and important one. The prohibitionists intend to make an active canvass this fall and will not let their old party prejudices deter them from making an aggressive fight against the rum power.

It is said that over three hundred men in the shops have signified their intention of becoming members. Had Gresham been nominated the democrats would have had a hard fight in Indiana. Young Stringer fell on his head and suffered a severe concussion of the brain. Young Glenn had his scalp torn from his head exposing his skull, evidently from being tramped on. Dr. H. S. Myers attended the latter and sewed up his head, while Dr. Nieschang was called to attend the other. The horse was captured after completely demolishing the buggy.

The railroads are advertising tickets at one fare for the round trip for the Fourth of July and anticipate a large excursion travel next week as the result.

The Pittsburg shop employes are making great arrangements for their excursion to Warsaw next Saturday. It will be the biggest excursion of the season.

J. A. Ludington, machinist at the Pittsburg shops, and hitherto a republican, says he cannot vote for Harrison. He will support Cleveland and Thurman in November.

W. J. Seinwerth, southern passenger agent for the Michigan Central, is in the city to-day. Mr. Seinworth is one of the most popular railroad men that strike this city.

M. H. Cornell, an old and experienced conductor on the Lake Shore and Michigan Southern, met with an accident at Kendallville, Ind., on Saturday, by which he loses a foot.

The Fort Wayne Gun club will accompany the excursion to Warsaw on Saturday, and will give an exhibition of bird shooting on the grounds immediately after their arrival there.

Fred Douglass, the great colored statesman, was a passenger on the Pennsylvania limited last night, returning from the Chicago convention, and addressed the crowd assembled at the depot from the rear of the train.

Will Craig, the popular young clerk at the Olds wheel works, watches the standing of the league base ball clubs and generally makes a trip down town in the evening to see what clubs have been the winners during the day.

Prosecutor Robinson distributed the cigars among the boys in the shops yesterday over his renomination at the county convention Saturday. Jim is popular among the shop employes and will poll a big vote in November.

There were three sections of No. 8 went through the city last evening on the Pittsburg with delegates returning from Chicago and several trains went east to-day on the Nickel Plate and Pittsburg. Others will pass through the city this evening.

Frank Cherry, of the Pittsburg boiler shops, is confined to his home on East Washington street, with a broken foot as the result of an accident which happened several days ago, and has not been to Chicago or Lima as was reported in some of the city papers.

Bennigan. c. f.; A. Benedict, r. f.; C. Daseler, extra.

Thomas Halls, the inventor of the Halls automatic coupler for freight trains, expresses himself as more than pleased with the manner the coupler performs, it doing better in coupling cars full sized than when in use as a model. Mr. Halls, who is special agent of the Ohio, Indiana and Western, will make every effort to introduce the coupler, which is very effective and simple in its construction.

Philip Smith, a machinist at the Bass works, was badly injured last evening, about 7 o'clock, while at work in the axle department of the establishment. He was temporarily filling the position of a man who was off duty on account of sickness, and as he was working at an axle lathe, a trestle above him gave way and and a large number of axles came tumbling down. The lower part of his body was completely pinioned in by the axles, and when extricated it was found that his legs were bruised and cut in a fearful manner. The "Lillie" was summoned, but failed to make an appearance and Mr. Smith was taken home in a hack. He will be kept from work for some time.

Yesterday afternoon, about an hour after the news of the nomination of Harrison had been received at the Pittsburg shops, some wag started the report that Fred Douglas had been nominated for vice-president. There are only a few republican boys in the shops, but when this information reached their ears their indignation knew no bounds, and fierce and loud were the grumblings that followed. They swore they would not support the ticket at all with a colored representative upon the tail end of it, and it was not until the boys quit at six o'clock that they found out they were the victims of a cruel joke.

The cheapest excursion of the season will be the one to Lake Maxinkuckee, Thursday by the Second Presbyterian church. Fare $1.25 for round trip.

Keil & Bro. are giving big bargains in borders. They are selling three yards for 1c, and are offering a large stock of remnants in gold border in fifteen to twenty-five yard lots at way down price. 25-3t

THE NEW ROAD.

The Business Men's Exchange Looking to It.

The Business Men's exchange held an interesting and largely attended meeting last night at which was considered the question of investigating the financial standing of the New York and Mahoning road, in consequence of the unfavorable reports that have been circulated regarding it. A. A. Purman, in behalf of the company explained that the suit brought against the road and which have given rise to the reports in question, was caused by the company refusing to accept thirty-two car loads of steel rails which were not delivered as ordered. Hence, suit was brought, but it has been amicably arranged and fully settled, and 1,400 men are now at work on the construction towards this county and Eastwood. Upon motion of P. A. Randall, a committee of five was appointed to guard all the promises made by the company concerning the election, and see that no money is paid out until the shops are completed and equipped and guard the people's interests. On this committee were named J. W. White, J. C. Paul, Fred Beach, W. W. Hugman and John Mohr, jr., to be known as a committee of safety and to be permanent until all is satisfactorily settled On motion the following members were appointed a committee to visit Findlay and Ottawa and look up matters connected with the road and report the result of their observations: H. C. Paul, H. C. Graffe and J. B. Monning.

Mr. Purman, on behalf of the railroad company, offered to put up a certificate of deposit sufficient to cover the expense of the election, the same to be placed in the hands of Mayor Muhler, and in the event that the shops are not commenced in ninety days from the date of the election, the amount shall be forfeited to the township. Upon motion the offer was accepted. On motion of Mr. Peters the committee on printing was instructed to furnish and publish the law concerning appropriations to railroads. There being no further business, the meeting adjourned.

LEVI P. MORTON!

Of New York, is Chosen by the Republicans for Vice-president.

Press Comments.

CHICAGO, Ills., June 26.—When the republican national convention met last evening the announcement of candidates for vice-president was continued. The first ballot resulted in the choice of Levi P. Morton, of New York, by the following vote:

Morton, 591; Phelps, 119; Bradley, 103; Bruce, 11; Thomas, 1.

Mr. Dennis, of Kentucky, moved that Mr. Morton's nomination be made unanimous. On motion of Gen. Rusied, of New York, the national committee was directed to provide in its call four years hence that the territory of Alaska shall have two delegates to the convention. Mr. Bowtelle, of Maine, then arose and said that in behalf of a large number of delegates, he desired to move to suspend the rules, and adopt a resolution to be added to the republican platform. Oliver, of Pennsylvania, objected that it was not in order. Great confusion and ill feeling followed. The chair sustained the point of order, but said the resolution might be read for information, shorn of objections responded and confusion reigned again. When order was restored Mr. Boutelle read the following: "The first concern of all good government is the virtue and sobriety of the people and the purity of their homes. The republican party sympathizes with all wise, well directed efforts for the promotion of temperance and morality."

As soon as this was read there was a rush from various states to second the motion. After some time, the question was put and the resolution adopted by a rising vote. Only one delegate from Maryland was brave enough to declare himself in the negative. A vote of thanks was then tendered to the chairman and other officers of the convention and then, on motion of Mr. Hiscock, the convention adjourned at 8:53 p. m. without delay.

WHEN THE CANDIDATES WILL BE NOTIFIED.

CHICAGO, June 26.—The meeting of the committee to notify the nominees was held this morning. Hon. Morris M. Estes presided. John C. Dougherty, of Tennessee, was secretary. The time for notifying the candidates was left to the discretion of the chair. Chairman Estes then decided to notify General Harrison at 12 o'clock noon on July 4th, at Indianapolis. The committee then adjourned to meet July 4 at Indianapolis.

DELEGATE'S CALLING ON HARRISON.

CHICAGO, June 26.—Chairman Estes, of the republican convention, together with six car loads of delegates, left this morning for Indianapolis, to call on General Harrison and congratulate him on his nomination.

MORTON TALKS.

RHINEBECK, N. Y., June 26.—Mr. Morton, on hearing of Harrison's nomination, said: "I regard General Harrison's nomination as the strongest that could have been made. It will place Indiana in the republican column, and with the republican party in New York united as it is to-day, I cannot for a moment doubt a republican victory in November."

CAPTAIN WHITE'S OPINION.

WASHINGTON, D. C., June 26.—Representative White, of the Fort Wayne district, says: "I consider it the best political move the convention could have made. It makes sure of Indiana for several reasons, and one important reason is that the democrats have undoubtedly slighted Indiana and that makes it all the more certain that the nomination of Harrison will secure it to the republican party."

PRESS COMMENTS.

The Indianapolis *Sentinel*, in speaking of the nomination of Mr. Morton, has this to say: "It is safe to say that had it not been for Mr. Morton's barrel the chances are that he would never have been thought of in connection with the vice-presidency. He is a man of mediocre ability, with no special amount of influence in any direction, and no political record of importance. He was elected to congress from the the aristocratic Fifth-ave. Murray Hill district of New York, and after that was sent to Paris by President Arthur in part payment of his contributions to the Garfield-Arthur campaign fund of 1888. After he was succeeded to the French mission by Minister McLane he returned to New York and made an effort to get into the United States senate through the legislature of his state, but made a failure of it, since which time he has withdrawn from public life. Mr. Morton is expected to canvass Wall street and eastern manufacturing districts whenever the national republican committee falls short of funds, which will probably be quite often during the next few months."

NEW YORK, June 26.—The *Commercial-Advertiser* (republican) says of the Chicago convention: "The platform adopted is astonishing in its proposals. It is, as we have said, unrepublican and un-American. It is a platform in direct contradiction of . . history's principal teachings and oft repeated promises of the party in whose name the conspiracy of unscrupulous politicians has put it forth. We mistake the character and temper of the intelligent republicans of to-day if many thousands of them do not condemn with their ballots, as their representative newspapers have through many months condemned, its suggestions in advance."

CONGRATULATIONS TO HARRISON.

INDIANAPOLIS, June 26.—General Harrison has been receiving telegrams and letters from all quarters and from many distinguished persons. Gen. W. T. Sherman sent the following:

"It is proper that I should assure you of my great confidence and hearty support."

General Sherman Opinion.

NEW YORK, June 26.—Gen. Wm. T. Sherman said, last night, at the Fifth Avenue hotel:

"I think there could not be a more powerful ticket than Harrison and Morton. I think that every man who fought for the preservation of this government should vote for these men. They are both strong union men, one a soldier and the other a statesman, and both are well tried in their country's service. Harrison, I think, will be as strong as Blaine would have been, Of course, I would rather my brother John had got it, but the republican party should be the judge and select its own standard-bearer. It is now the duty of every true citizen to stand by these men, who were true to the country when she was in danger. There has never been a true union man sent to represent this country in foreign lands under this administration and it is time for a change."

A Deep Gloom at Lafayette.

LAFAYETTE, June 26.—Harrison's nomination has cast a deep gloom over the republicans here and many have expressed their avowed disapproval. Gresham was a popular favorite with Blaine. A weak attempt was made here last night to enthuse over Morton, but two tin horns were the only ones heard. Dissatisfaction is a substantial fact and will make practical showing in November balloting, when the clique will not control the popular vote. Harrison, by all his friends, is considered the weakest man whom the republicans could have named. His nomination has been received with tears of political regret in many places.

Republicans For Cleveland.

PEAN, Ind., June 26.—Last night was the reorganization of the old Hendricks club here. Frank D. Butler, one of the best organizers of the country, is its president, assisted by a vice president from each ward. Speeches were made by J. L. Farrer, J. T. Cox and Charles A. Cole, at the close of which a staunch republican came up and attached his signature to the long list of members. Gresham had many friends here who now openly avow that they will support Cleveland and the old Roman. The mugwump cry will be louder than ever in this campaign.

A Prohibition Victory.

CLINTON, Iowa., June 26.—Judge Howat yesterday ordered a temporary injunction to issue against nine saloon keepers and the buildings they occupy, restraining them from selling liquor until applications for temporary injunction can be heard in the district court in September. This is the first real victory for the element in favor of enforcing the law, and it is the direct result of Mayor Chase's efforts to close the saloons. The prominent saloonists enjoined have closed their places.

Barnum & Bailey Sued.

LOGANSPORT, Ind., June 26.—Charles Helsman, of Lafayette, yesterday filed with the county clerk of this county a suit against Barnum & Bailey for $2,500 damages. He claims that during the parade here last Tuesday an elephant frightened a horse, causing a runaway in which he received injuries to that extent.

Snow Falls.

MILWAUKEE, June 26.—A special from Ellsworth, Pierce county, says snow fell there this morning.

TERRIBLE DISASTER.

Over Seven Hundred Lives Destroyed and Thousands Made Homeless by the Floods in Mexico.

ST. LOUIS, June 26.—A special dispatch from the City of Mexico gives the particulars of a terrible disaster on the line of the Mexican Central railway, particularly at Leon and Silao.

Every mountain rivulet along the Central railway for more than 200 miles has been converted into a destructive torrent and the valleys present the appearance of lakes. Leon and Silao have been partially destroyed. About 395 houses have been destroyed. It is estimated that 700 persons perished at Leon. One hundred and eleven bodies have been recovered without moving any of the ruins of the houses. The destroyed houses are estimated at 2,000 and the loss at $2,000,000.

Many other towns have been badly damaged, but loss of life is only reported from Silao and Leon. The last reports from Leon are heart-rending. The whole population are busy working in the ruins of the fallen houses. Nearly everybody has lost relatives or friends. The very last reports, just received, places the number of houses destroyed in Leon at 2,236 and the homeless families at more than 1,000. More than 250 bodies have been recovered from the ruins and there is no probability that the entire number will fall short of 700.

A dispatch from El Paso, Tex., says 1,800 lives were lost by the inundation in Mexico. One thousand bodies have been recovered. One hundred miles of Mexican railroad will be impassable for ten days before the mails can get through.

A DOUBLE TRAGEDY.

A Young Lad Shot the Cook and Then Blew Out His Own Brains.

NEW YORK, June 26.—This morning Joseph Zeford, a sixteen-year-old boy employed in a boarding house at 125 West Fourth street, shot and instantly killed Rosie Sheridan, aged nineteen, the assistant cook. Then he blew his own brains out.

Somebody Poisoned the Fair Sleeper.

LOCKPORT, N. Y., June 26.—Mrs. Helen Althouse, the well known mysterious Attica sleeper, has had a narrow escape from death from poisoning. Two strange men visited Mrs. Althouse, last Thursday, and it is thought they induced her to drink coffee which had previously been poisoned. After they had left, Mrs. Althouse had every symptom of having been poisoned. The men were unknown to the family, but Mrs. Althouse seemed to know who they were, although she declines to talk. Vague talk about money adds to the mystery. The case has been laid before the district attorney.

Struck by the Train.

BROWNSTOWN, Ind., June 26.—Passenger train No. 5, on the O. and M. road struck Jerry Fleetwood and a young man named Jones at Medora, this county, while they were sitting on the track. They were hurled a considerable distance. Fleetwood has several ribs broken beside severe internal injuries, and his condition is critical. Jones was fortunately but little hurt. The train was making forty-five miles an hour.

Arrest of a Horse Thief.

SEYMOUR, Ind., June 26.—Asbury Goble was arrested at his home in Houston, this county, on the charge of having stolen a horse, about ten days ago, from W. D. Scott, same place. It was learned that Goble took the horse, worth $75, to Columbus and sold him for $15. The proof against him is positive. He was brought here and placed in the county jail.

Good Fortune That Came Too Late.

FINDLAY, O., June 26.—Squire Johnson has just been granted a back pension to the amount of $5,700 and $25 a month henceforth. It comes too late for him, as his mind is nearly gone. He is an inmate of the Hancock county infirmary. He has three young daughters to be benefitted. Isaac Davis has been appointed guardian for Johnson, with bond fixed at $15,000.

Diseased Cattle.

INDIANAPOLIS, June 26.—Complaint comes to the state board of health of the prevalence of disease among the cattle in the vicinity of Richmond. Whole herds are afflicted. One of the state veterinary surgeons is now examining the nature of the disease.

DYING BY HUNDREDS.

Excessive Heat Causes the Death of Countless Children in New York.

NEW YORK, June 26.—The continued heated term is playing sad havoc among the children in the tenement house districts. The certificates of deaths are pouring in and several clerks are kept busy tabulating them for future reference in the bureau of vital statistics. Up to noon yesterday over one hundred deaths of children from diarrheal diseases, caused by the heat, have been reported and it looks like fully three hundred deaths for the day, the heaviest in a year. Horses are suffering severely and a number of cab and car horses have dropped dead from the heat, the latter notwithstanding the fact that the companies have relays at intervals of a mile and hospital stations along the lines. At noon the thermometer registered 88 degrees.

WITH A BALL IN HIS BRAIN.

A Wounded Man Walks a Mile and a Half for a Doctor.

LOGAN, O., June 26.—William Johnson shot and killed William Hill, a miner, at Johnson's residence, at Lick Run, just on the edge of this county, Sunday. Hill walked one mile and a half to a doctor's office with a twenty-eight caliber ball in his brain. The difficulty grew out of a trivial remark made by Hill to a woman who is living with Johnson as his wife. Hill is a married man and left a family consisting of a wife and children, at Jackson, Ohio. Johnson is in jail.

HELD BY TRAMPS.

Boys Held for Ransom by Tramps Make Their Escape.

CANTON, Ohio, June 26.—E. Louisenhoiser, a boy who has been missing seven weeks, has returned, saying he was chloroformed by tramps, conveyed in a freight car to Altoona, then marched to the tramps' camp, where three other boys were held for ransom. They were close guarded, but this boy made his escape and gave notice to the police at Altoona, who dispersed the tramps and released the boys.

CHLOROFORMED BY BURGLARS.

A Lady Robbed of Her Rings While Sleeping.

SHELBY, Ohio, June 26.—While Mr. and Mrs. Oil May were asleep last night burglars entered their bedroom, chloroformed them, and took two valuable rings from Mrs. May's hand while she was asleep. A valuable watch and several other articles of value were taken.

Shot by a Saloon Keeper.

OSCEOLA, June 26.—Yesterday afternoon John W. Johnson, saloon keeper, ordered Lewis Schrader, aged about thirty, to leave his saloon, and upon refusal Johnson shot him with a revolver, the ball entering about the fifth rib. Schrader is not expected to live. Johnson gave himself up, and was bound over to the circuit court on the charge of shooting with intent to kill.

Lynched by a Mob.

CHICAGO, June 26.—A special from Charleston, Coles county, Ill., says: "Wm. Moore, the colored man who assaulted Mary A. Bingardiner, at Mattoon, Saturday night, was taken from the county jail at Charleston and lynched by a party of masked men. Moore came from Shelbyville, Ill., and was only sixteen years old."

Struck a Fatal Blow.

CINCINNATI, June 26.—Yesterday afternoon in the yards of the Ohio and Mississippi railroad, Henry Loose and William Deckman became engaged in a quarrel, which ended in Deckman striking Loose on the head with a stick of wood. Loose's skull was fractured and he died an hour after. Deckman escaped into Kentucky.

The engines, baggage car and freight cars were demolished and the track torn up for a long distance. The engineer was fatally hurt and the passengers scratched and bruised. All were taken back to Fostoria and around to Columbus.

A DIVER'S BIG HAUL.

Thousands of Dollars Worth of Stolen Property Recovered.

NEW YORK, June 26.—The diver employed by the Adams Express company to search for the treasures that Dennis Mallen, the thievish boy messenger, threw into the river at the company's dock, Jersey City, has made a rich haul.

When his work for the day was finished and he had thoroughly turned over mud to the depth of three feet, he was rewarded by securing thirty dozen boxes of valuable jewelry and a quantity of solid silverware. The property is much damaged, but is worth thousands of dollars. The $1,500 badge which was to have been presented to Mayor Haines, of Newark, was not found.

KILLED WHILE HUNTING.

The Premature Explosion of a Gun Causes a Young Man's Death.

MARION, Ind., June 26.—Arthur Erskin, residing ten miles east of here, met with a terrible death yesterday. Erskin, while out hunting, was standing on a piece of timber, his gun by his side and the muzzle leaning against his body. The load was discharged in the young man's groin and bowels, and he expired after several hours of the most intense agony.

The Reason Why

Ayer's Pills are so popular is, that while always reliable as a cathartic medicine, they never leave any ill effects. This is because they are purely vegetable, and entirely free from calomel or any other dangerous drug. In all cases, therefore, whether the patient be old or young, they may be confidently administered.

In the Southern and Western States, where derangements of the liver are so general, Ayer's Pills have proved an inestimable blessing. D. W. Raine, New Berne, N. C., writes:

"I suffered a long time with stomach and liver troubles. I tried various remedies, but received no benefit until I commenced taking Ayer's Pills. These pills benefited me at once. I took them regularly, for a few months, and my health was completely restored."

Throughout New England, next to lung diseases, **Stomach and Bowel Complaints** are the most prevalent.

Dyspepsia

and Constipation are almost universal. Mr. Gallacher, a practical chemist, of Roxbury, Mass., who was long troubled with Dyspepsia, writes:

"A friend induced me to try Ayer's Pills, and, after taking one box without much benefit, I was disposed to quit them; but he urged perseverance, and, before I had finished the second box, I began to experience relief. I continued taking them, at intervals, until I had used eleven boxes. Suffice it to say, that I am now a well man, and grateful to your chemistry, which outstrips mine."

The head and stomach are always in sympathy; hence the cause of most of those distressing headaches, to which so many, especially women, are subject. Mrs. Harriet A. Marble, of Poughkeepsie, N. Y., writes that for years she was a martyr to headache, and never found anything to give her more than temporary relief, until she began taking Ayer's Pills, since which she has been in the enjoyment of perfect health.

NOTES ON SCIENCE.

It is a new idea to most persons that edge-tools not infrequently become what artisans term "tired," and will not hold a keen edge until they have a rest. This is the statement of carpenters, barbers, and wood-choppers. Locomotive engineers notice something akin to this in their engines. It is probable that constant and hard usage causes changes in the crystallization that may account for this peculiarity in inanimate things.

SCIENTISTS have determined by careful experiments that a man can barely taste 1-1,000th of a grain of sugar, 1-1,000th of a grain of salt, and 5-10,000,000ths of a grain of strychnine.

CHAMOIS skin that is washed in water becomes stiff and harsh. But it can be washed and yet remain soft and pliable by the following method: Use a weak solution of soda and warm water, rub plenty of soft soap into the leather, and allow it to soak for two hours, then rub it sufficiently and rinse in a weak solution of warm water, soda, and yellow soap. If rinsed in water only it will be unfit for use when dry. After rinsing wring it out in a rough towel and dry quickly. Then pull it about and brush it well.

TO TREAT an ingrowing nail begin the cure by application to the tender part of a small quantity of perchloride of iron, which can be easily procured either in fluid or powder form at a drug store. The tender flesh is dried and tanned by this application and ceases to be painful. When this hardened flesh has remained on two or three weeks it can easily be removed by soaking in warm water. Loose shoes and cutting the nails properly will complete the cure.

WE have sixty divisions on the dials of our clocks and watches, because the old Greek astronomer, Hipparchus, who lived in the second century before Christ, accepted the Babylonian system of reckoning time, that system being sexagesimal. The Babylonians were acquainted with the decimal system, but for common or practical purposes they counted by "sossi" and "sari," the "sossus" representing sixty and the "saros" six times sixty—360. From Hipparchus that mode of reckoning found its way into the works of Ptolomy, about 150 A. D., and thence was carried down the stream of science and civilization and found its way to the dial-plates of our clocks and watches.

IN France wood-pulp is rapidly being substituted for plaster of paris in the manufacture of all sorts of moldings and ornamental parts of buildings. The method is newly devised.

PETER CARTWRIGHT'S NERVE.

In August, 1857, we held a camp-meeting near Walker's Grove, Mason County, where for ten days it seemed as if the devil was turned loose. The rabble not only drank whisky and made night hideous with their yelling, but they stole the campers' utensils and provisions, and a row which took place about a half-mile from the camp-ground, in a dispute growing out of a game of cards, a man was killed, and the killing was charged to young Armstrong, whom Lincoln cleared.

A man came to the camp-meeting and put up a tent and stand on the northwest corner of the square where services were held, where he not only had cheese, crackers, and candy for sale, but whisky as well. He had a double-barreled shotgun, pistols, and butcher-knives convenient for use, and an ax where he could lay his hand upon it, and he swore he would be the death of any one who attempted to arrest or interfere with him. The camp-meeting authorities could not get any officer of the law to attempt his arrest. Peter Cartwright, D. D., who was presiding elder of the district and in attendance upon the camp-meeting, said that if they would deputize him he would arrest the man. The papers were accordingly made out. Dr. R. N. Davies, of the Illinois conference, and I accompanied Dr. Cartwright; and he deliberately walked up to the man, though the fellow had grabbed the ax and swore the most terrible oaths that he would brain any one who touched him. The doctor laid his hand upon the man's shoulder and said, "You are my prisoner; come along." The fellow laid down his ax and was led out of the stand by Dr. Cartwright. I have always been counted to have considerable nerve, but I would not have attempted to do what Dr. Cartwright did for all Jay Gould is worth. Afterward Dr. Cartwright was presiding elder for two years, and he has told me that he did not think that he knew what the sensation of fear was. —*Rev. Mr. Bryant, Littleton, Ill.*

Saved Himself.

"When Alphonse Daudet, the novelist, was a schoolboy, he played the truant six days out of every ten," says the London *Standard*. "His favorite haunt was the river, where, with pipe in mouth and flask in pocket, he mingled with boon companions of the class, part sailor, part laborer, part rascal, who navigate the steamboats and barges on the Rhone. These wanderings were not unknown to his mother, and the future novelist was early constrained to invent fictions in the hope of escaping the rod. Returning one day from a freak of vagabondage, and being at his wit's end for a new excuse, he gravely announced the death of the Pope. His devout parents were too greatly concerned at the loss of their spiritual father to trouble their heads about the truant. The young rogue shared the grief of his honest parents, and consoled himself with the thought that on the morrow, when they learned that the Pope was not dead, they would be too pleased to scold."—*New York Evening Post.*

Old Cussinggee's Tomahawk.

A curious and historic Indian tomahawk has been unearthed on the banks of the Richland Creek in Green County, Ga. Its historic interest consists in the fact that it has been identified by old settlers as the ax wielded by Cussinggee, one of the most dreaded Indian braves who resisted the advances of the paleface into that part of the country. In size the tomahawk is as large as an ordinary ax, but is much thicker and heavier, yet Cussinggee is said to have wielded it as though it were a mere toy. It has still a keen edge. As a piece of workmanship it is perfect. It is of black granite rock, and is cut smooth in every respect. The ax weighs three pounds, and there would be no trouble in severing a man's head in two with it. It was found on the bank of Richland Creek sunk deep in the earth, where it has lain certainly for fifty years.

How to celebrate the anniversary of the independence of the United States is, at this time, a question of much importance to most people, and the Wabash railway anticipating the general desire of the public to go somewhere on this occasion, has reduced its rates to one fare for the round trip to and from all stations on its lines. Tickets will be on sale July 3 and 4, good for return passage until July 5 inclusive.

BALM, overcomes Sallowness, Blotches, and gives a Smooth, Soft, Youthful and Pliable Skin!

SPEAKER CARLISLE deplores the growing tendency of both sides to make Congress a field of partisan discussion for campaign purposes rather than for legislation to meet the exigencies of the people, and thinks the body will be fortunate to be able to adjourn by September.

MRS. JEFFERSON DAVIS is of northern stock, and her grandfather obtained his main place in the history of New Jersey for commanding all the New Jersey line in the subjugation of the first rebellion against this government. Washington called out some twelve thousand men from the three States of Pennsylvania, Virginia, and New Jersey. The commanders of these levies were Gov. Mifflin, Henry Lee the father of Robert E. Lee, and Richard Howell, the grandfather of Mrs. Jefferson Davis.

JOHN W. MACKAY does not appear to be made of the common clay of which most millionaires are composed. A writer in the Salt Lake *Tribune* once heard the bonanza king say when a strike was threatened in Virginia City: "I am sorry that those men who are receiving $4 a day do not save more of their money. I rolled rocks in Yuba River fourteen hours a day, for months at a time, and went to camp every night supplied to the limit, and did not average $4 a day, but no one ever found me quite broke or ever heard me complain."

"WHAT AILS YOU?" You don't know? Then why don't you try WARNER'S SAFE CURE? Oh, my Kidneys are all right! "Are they?" You perhaps don't know that CONSUMPTION, NEURALGIA, RHEUMATISM, STOMACH DISORDERS, MALARIA, CHILLS AND FEVER AND AGUE, HEADACHES, LIVER DISORDERS, IMPAIRED EYESIGHT, CONSTIPATION, ABSCESSES, ERUPTIONS, IMPOTENCY, LAME BACK, LUMBAGO, BOILS, CARBUNCLES, and, among women, FEMALE COMPLAINTS prevail mostly among people who, like yourself, insist that they have no kidney disease! They have and don't know it. You will never get well of the above and countless other common disorders, which would never prevail if the Kidneys were all right, unless you restore the unsuspected disordered Kidneys by that great blood tonic and purifier, WARNER'S SAFE CURE.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies. **Dr. Pierce's Favorite Prescription** is the product, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have made it the most successful cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for women's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly restorative. It is unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous prostration, hysteria, spasms, and other distressing, nervous symptoms commonly attendant upon functional and organic disorders of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhœa, excessive flowing, painful menstruation, irregularly suppressed, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with internal heat.

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe, remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "the change of life."

"Favorite Prescription" is the only medicine for women, sold by druggists, under a positive guarantee, from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

THE NEW ROAD.

The Business Men's Exchange Looking to It.

The Business Men's exchange held an interesting and largely attended meeting last night at which was considered the question of investigating the financial standing of the New York and Mahoning road, in consequence of the unfavorable reports that have been circulated regarding it. A. A. Furman, in behalf of the company explained that the suit brought against the road and which have given rise to the reports in question, was caused by the company refusing to accept thirty-two car loads of steel rails which were not delivered as ordered. Hence, suit was brought, but it has been amicably arranged and fully settled, and 1,400 men are now at work on the construction towards this county and Eastwood. Upon motion of P. A. Randall, a committee of five was appointed to guard all the promises made by the company concerning the election, and see that no money is paid out until the shops are completed and equipped and guard the people's interests. On this committee were named J. W. White, J. C. Paul, Fred Beach, W. W. Hugman and John Mohr, jr., to be known as a committee of safety and to be permanent until all is satisfactorily settled. On motion the following members were appointed a committee to visit Findlay and Ottawa and look up matters connected with the road and report the result of their observations: H. C. Paul, H. C. Grafe and J. B. Manning.

Mr. Furman, on behalf of the railroad company, offered to put up a certificate of deposit sufficient to cover the expense of the election, the same to be placed in the hands of Mayor Mahler, and in the event that the shops are not commenced in ninety days from the date of the election, the amount shall be forfeited to the township. Upon motion the offer was accepted. On motion of Mr. Peters the committee on printing was instructed to furnish and publish the law concerning appropriations to railroads. There being no further business, the meeting adjourned.
